2<sup>nd</sup> INTERNATIONAL CONFERENCE AND EXHIBITION ON OCCUPATIONAL HEALTH AND SAFETY IN MINES

ROADMAP TO SAFER MINING

December 05-06 2016  
 Hilton Convention Center- Istanbul

DECEMBER 5 & 6 2016  
2<sup>nd</sup> INTERNATIONAL CONFERENCE AND EXHIBITION ON  
OCCUPATIONAL HEALTH AND SAFETY IN MINES  
ROADMAP TO SAFER MINING  
ISTANBUL, TURKEY

Turkish Miners Association is proudly contributing to the progress of improving safety and health conditions in mining industries, and is pleased to announce the 2<sup>nd</sup> International Conference and Exhibition on Occupational Health and Safety in Mines to be held between December 5 and 6, 2016, in Istanbul, Turkey. The main purpose of the conference is to create a venue to discuss the OHS problems in mining and potential solution strategies, thereby improving OHS for mine workers with a view for proposing a "Roadmap to Safer Mining" in Turkey.

Our first Safety and Health Conference was held in December 2014 with the participation of more than 400 delegates and exhibitors. The 2014 Conference had mining OHS experts from Turkey and other countries such as Australia, Canada, and USA.

The 2<sup>nd</sup> Conference, in 2016, will be attended by mining engineers and managers, government organizations, private mining companies, OHS managers, university faculty and students, as well as manufacturers. This conference will present an opportunity to meet with distinguished speakers of international reputation from Australia, USA, South Africa, Canada, Switzerland and Turkey. The conference will provide a forum where practical and theoretical OHS problems and solutions will be discussed, and also experiences from different countries with latest technological improvements will be presented. The culture of safety with its human-capital implications will also be discussed in this year's conference. In addition, an "Operational Risk Management in The Global Mining Industry" workshop will be given by Davir Reece who is one of the leading risk management experts in the world, This workshop will be on December 3&4, 2016.

The Turkish Miners Association is pleased to organize the second of these premier conferences and cordially invites you to participate in this important event, which will help improving OHS in mining internationally. We look forward to seeing you in Istanbul, in December 2016.
